

APRIL 14, 2018

VETERINARIAN BIOSECURITY WEBINAR

12PM EST-1:30PM EST

On April 15, 2018 Dr. Jean-Yin Tan will be delivering a 1.5-hour Veterinarian Biosecurity Training Webinar.

Equine veterinarians will participate actively in learning how to coach clients who manage events or facilities on how to develop biosecurity plans, including rationale for development. Veterinarians can expect to increase their depth of knowledge on biosecurity plan development and can look forward to an excellent lecture from a board-certified internist with extensive experience.

Dr. Jean-Yin Tan is board-certified in internal medicine. Originally from Edmonton, Alberta, Dr. Tan completed her Doctor of Veterinary Medicine degree at Cornell University in 2005, where she had the opportunity to participate in research on Recurrent Airway Obstruction (heaves) at the renowned Baker Institute of Animal Health. Following a prestigious 1-year internship at Mid-Atlantic Equine Medical Center in New Jersey, Dr. Tan completed her large animal internal medicine residency at the University of Minnesota in 2008, where she published on systemic calcinosis in horses and researched Lawsonia in adult horses. She incorporated her expertise in internal medicine with general practice as an equine ambulatory practitioner at UC Davis in California and subsequently in private practice in New Jersey, where she also began internal medicine consultancy work. In 2011 Dr. Tan opened a highly successful ambulatory and referral equine veterinary clinic outside of Syracuse, New York, where she served as Managing Partner. She joined University of Calgary as an instructor in Equine Clinical Sciences in 2015. Dr. Tan is trained in equine acupuncture, certified in equine rescue, and her interests include equine respiratory disease and equine infectious disease.

If you are interested in participating please stay tuned please register at <https://www.eventbrite.ca/e/veterinarian-biosecurity-workshop-tickets-44417068648>

Thank you!
